

Hellenic Hail Suppression Program by Aerial Means - Public Consultation of Project Declaration

ELGA (Hellenic Agricultural Insurance Organization) poses to Public Consultation the Declaration for the:

1. Lease of one (1) Hail Suppression System and Procurement of Silver Iodide in packaging,
by awarding the most economically advantageous tender, on the basis of the best value for money.
2. Procurement of Radiosonde Materials,
by awarding the most economically advantageous tender, based on price (lowest price).

The above Declaration concerns the implementation of the Hail Suppression Program by Aerial Means through ELGA for the protection of crops from hail and consists of the above two (2) parts.

The candidates may bid for one or more or all of the parties. The offer is obligatory for the total quantity of each part.

The comments of the economic operators are posted on the National System of Electronic Public Procurement online platform (<http://www.eprocurement.gov.gr>). Please note that the post is not a start of the Competition. The Consultation will take 20 days, up to 17th of October, to post on the website of the National System of Electronic Public Procurement at the “consultations” link.
